

Satellite symposium at the
7th Congress of the European
Academy of Neurology

Partnering with patients from the start of the MS journey: Priorities, practicalities and progress

Sunday, 20 June 2021, 12:15 – 13:00 (CEST)

Room name: Vienna

EAN virtual congress: www.eanvirtualcongress.org

Agenda

Join our panel of experts to hear about the latest advances in MS therapy and how these are improving outcomes for people living with MS (PlwMS) from the start of their MS journey. We will discuss the importance of addressing what matters most to PlwMS through shared-decision making and consider the challenges of managing MS through the current pandemic.

Chair: Caroline Wyatt, Journalist living with MS, UK

Advances in therapy and improved long-term outcomes: Time to reappraise?

Ralf Linker, Germany

Managing MS in a unique era: New contexts and new challenges

Stephen Yeung, USA

Advances in MS therapy: Are we improving the patient's experience?

Colleen Harris, Canada

Audience Q&A
